## Chapter Director's Message

It hardly seems possible that it has been a year since Kim and I became FL1-M's Chapter Directors, but by the time this issue of the Newsletter is out that will be true. How the time has flown!! Already we are preparing for another busy holiday season, full of fun rides, socializing and activities! To get the ball rolling, we held a Bike Decorating Party to encourage participation in Chapter M's lighted bike rides. The purpose of the party is to help everyone decorate their bikes, providing special assistance to those who have never done it before.

We particularly want to thank those, such as Paul Begin and Maryann Todd, who had either already decorated their own bikes or didn't plan to decorate their bikes, but still came to the Party to help others decorate.

Thousands in our community look forward to seeing our lighted bikes each year as we ride through mobile home parks and in parades and display our bikes at area Malls and in Largo Central Park.

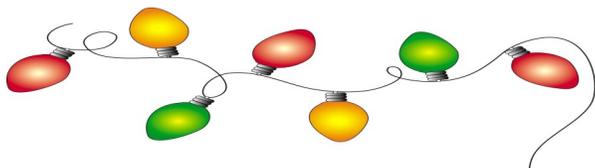

At left: Mary Claypool’s Dad, Bill Lattanze, helped her decorate her Can-Am for the first time.

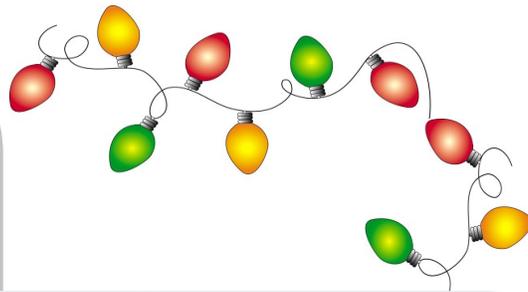

Below: Jerry Costell, Dave and Zee Morgan consult on cutting edge suction cups .

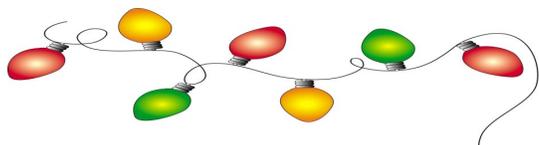

At left: “Newbie” decorator Glenn Duncan quickly got the hang of it.

At right: We were glad to see Dave Johnson, former Chapter Director of K2, who dropped by to visit—shown here with Santa and Tracy Dunn.

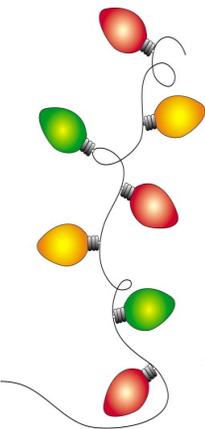

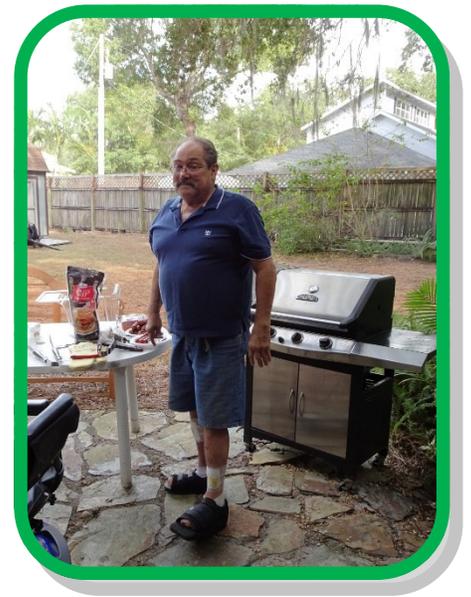

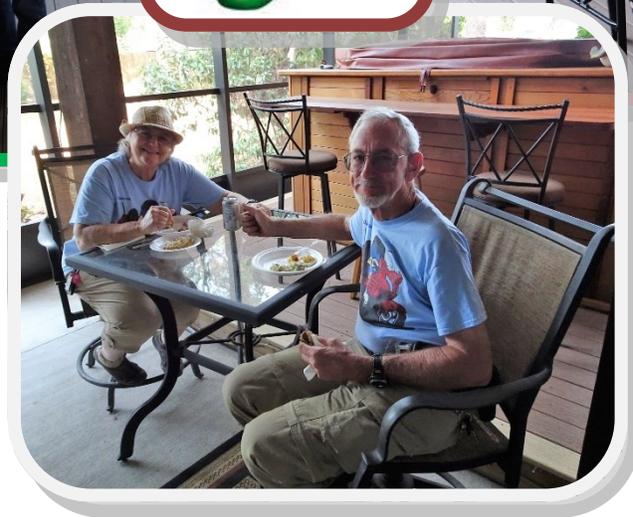

This was only Bill McGill's second time decorating his bike, and he had it down pat! Our first lighted ride this year will be through Bill and Winnie's place, Oak Crest Mobile Home Park, on December 1.

Of course, no Chapter M gathering would be complete without food and the Bike Decorating Party is no exception! A big THANK YOU to Ron Schwager for cooking the burgers, dogs and brats for us!!!

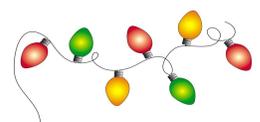

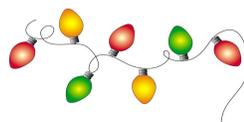

Many of the communities we go through provide refreshments for us in their clubhouses, and we have a lot of fun socializing at the various stops. It is always a thrill to ride along in a group of lighted bikes and hear car horns honking and see little kids (and a lot adults too!) waving excitedly as we go by.

We raise a substantial portion of our charitable donations through these lighted bike rides, so it is important that we have a good turnout for each ride. Weekly email updates will be sent outlining the lighted rides and highlighting any recent schedule changes. So please keep an eye out for those emails and plan to participate in as many of the lighted bike rides as possible.

We are looking forward to the Christmas Party on December 4 and hope to see you there.

**Wishing you and yours a very Merry Christmas  
and a Happy New Year!**

# First Aid Kits

## Does yours need a check-up?

By: Cash Anthony

---

Do you carry a First Aid kit on your bike? If so, when is the last time you took a look inside? Many riders probably carry kits which were purchased to meet a perceived safety requirement (or to qualify for a safe-riding badge), but if you don't know what your First Aid kit contains, you may be unpleasantly surprised if you ever need to use it.

What passes for a First Aid kit from sources such as discount stores and auto supply shops (and sometimes given away as Poker Run prizes) may be woefully short of what is needed for our sport. In case of a motorcycle accident, I dislike to say it, but band-aids ain't gonna help much, folks.

I was lucky enough to take a First Aid course a couple of years ago with some of the best EMS people I've ever met, at the home of our Assistant CDs for GWTA Chapter "I", Kathy and John Holly. The team who taught the course had handled serious accidents on a daily basis -- in fact, the woman in charge told me it was rare for them to be on the job for a shift without having to perform CPR at least once -- and they had come upon a number of accidents involving motorcyclists. They stressed several things that have really stuck in my mind.

- Your First Aid kit needs to have a really good pair of scissors in it, to cut away (thick) clothing. If you can't see the injured area, it's hard to figure out what is best to do. You may find it worthwhile to invest in a heavy-duty shears which can handle thick material.
- Every rider should carry a pair (several pairs is best) of latex gloves to be used in case of an accident where blood is spilled. Having them on your bike may allow persons who want to assist you to make that decision without fear of contamination, as well as being available to you to help someone else.
- A good First Aid kit should have a number of triangle bandages in it, which can be easily made from inexpensive muslin purchased at any fabric or discount department store -- I got mine for about .99 a yard. These pieces should be large enough that you can make a sling from them, or fold them to use as a pressure-point type bandage, or put them on a head injury to hold other bandages into place. Mine are about 30" by 30" and are cut on the diagonal. These are just unbleached muslin, but they are clean and strong and BIG. I've NEVER seen a commercially purchased First Aid kit with these supplied. If you need more than one (for example, after making a sling for an arm, it's a good idea to immobilize that arm by binding it to the upper body), you can tie several of these together if the patient is a large individual. Carrying a minimum of three triangle bandages would be a good idea.
- I've also seen very few kits that have anything like enough sterile gauze pads. If you need to put pressure on a bleeding wound, you'll go through these items fast and will want enough to add another clean one often. NOTE: **Place a new gauze patch on top of an existing blood soaked patch** in order to prevent tearing any existing clotting that has begun and reopening a wound.
- It is helpful to have a bottle of filtered or distilled water in your kit. This can be useful in case of broken bones, eye injuries, cleaning out other minor injuries, and for dehydration. If you've got a compound fracture, it may be helpful to put a muslin bandage over a damp gauze bandage on the end of the exposed bone, to keep it from drying out, though an experienced EMS person has advised to simply use a clean (sterile), dry, dressing as you would any other open wound. Many minor problems can be dealt with initially by washing them with clean water, and debris in the eye can often be relieved by this, with nothing else required. (Even if the water isn't distilled or filtered, it can still be used if it's of potable quality.)

- In the case of very bad head injuries, it's not unusual to have substantial eye injuries. Unfortunately, eyes can come out of place on impact. The recommended First Aid in this situation is to have a cup (like a clean Styrofoam cup) available to contain the damaged and displaced eye, and to strap that cup onto the face with a triangle bandage or use a roll of gauze. The medical folks today can do amazing things to put an eye back into place, but it's a good idea to bandage both eyes to keep the person from panicking (and to slow the 'eye-matching' reflexes, which try to make our eyes work together), while touching and reassuring the injured party. Having a clean cup in your kit may permit you to do someone an invaluable service by helping to save their sight.
- Those who haven't taken a CPR or First Aid class in a while might be interested to know that the American Heart Association guidelines on CPR have been changing gradually. The last time I took one (about 14 months ago), I found that the procedure was not exactly the same as what I'd been taught in my previous courses. But all these courses do strongly recommend that a person who is going to administer CPR have a barrier available to protect them from the bodily fluids of the injured party. This may be a plastic gadget that looks like a kitchen gripper, with a hole in it for a breathing tube, or a more sophisticated mask that can keep a rescuer's face and lips away from the injured party while he or she breathes for the person who's down. These items are inexpensive and are available at medical supply shops, but I've yet to see a commercial First Aid kit that comes with one.
- Most simple First Aid kits contain some kind of antiseptic ointment or cream. These can be useful for minor sunburns or insect bites, but they should usually NOT be used on a serious injury. When the medical folks start working on a wound, they don't want to wonder what has already been applied to it. When in doubt, throw it out.

In case of an accident, the first response these days is to call 911. In most regions of the country, even in rural areas, emergency assistance can be sent out right away. However, if you ever become a witness to a bad accident, you'll discover how important it is to have current information and adequate First Aid gear, even if you can't really do very much at the scene. It may save a life to know what NOT to do.

When you reach for that First Aid kit, you'll be better prepared if you know what's in it and how to use it. Take some time to look at what you're carrying on your bike, to see if it's what you really need.

A Motorcycle First Aid Kit has special needs. This is mainly to do with size, but also the types of common injuries that bikers may experience need a different balance of first aid content.

Motorcycle First Aid Kit:

Antiseptic Wipes - 5 or 6 packet wipes.

Alcohol Wipes

Antibiotic Ointment - Individual packets. Pack 6.

Anti-microbial Hand Cleaner – Waterless

Q-Tips

Band-Aids - A variety of shapes and sizes for small cuts and scrapes.

Steri-Strips (Butter-fly sutures, Adhesive Sutures, Adhesive Closures) - used to pull a small gaping cut or wound together.

Large Combine Pads - For heavy bleeding (woman's Kotex napkins also work)

5 Large Sterile Gauze Pads - For bleeding

Roll Gauze – several large width

Silk Tape

Paper Tape – (adhesive tape melts)

Razor Blade(s)

Heavy Duty Scissors

Bandage Scissors

Liquid Bandage - Skin Adhesive for wound closure, Walgreens and CVS

Tweezers

6 Safety Pins

CPR Mask or Shield

Emergency Blanket – (Thermal) These are great for retaining body heat and can be used as a reflector for rain and ground cover.

4 – 6 Normal saline 10ml vials - this doubles as an eye wash or wound cleansing.

Instant Cold Pack(s) - These are so useful with burns, bruising, swelling and sprains.

Burn cream or gel - Aloe Vera aids in healing, pain relief, has anti-inflammatory properties, helps prevent blistering and scarring.

Glow Stick - High intensity emergency glow stick for directing traffic or signaling for help.

6 Heavy Duty Zip-lock Bags - Tons of uses including removing used and contaminated gauze, gloves and dressings.

Non-Latex gloves

Non-deodorant Feminine Pads - This is an old first aider trick. Feminine pads are highly absorbent and great for stopping heavy bleeding. Cut them in half for easy storage and usability.

Anti-diarrhea - tablets (example Imodium pills)

Anti-acid – (example, Tums or equivalent)

Antihistamine - for mild allergic reactions (example, Benadryl – tablets and cream)

Pain reliever(s) – Ibuprofen, Tylenol, Aspirin\_or equivalent

Triangular Bandage - For slings, padding, strapping limbs to splints when fractures are suspected.

Trauma shears - heavy duty pair

Bandage Scissors

Elastic bandages

2 wash cloths

Have at least one bottle of water on the bike or in a cooler to wet the wash cloths

Bayer Quick Release Crystals (for heart attacks, put under the tongue)

6 - 8 Sugar Packages – For Diabetics

Urgent QR, Wound Seal, Quick Clot– or equivalent (blood clotting powder)

Have your own personal emergency medications with you. (Examples Epi-pen, Nitro, etc.)

**Curtis and Tracy appeared in matching orange shirts, looking like “The Great Pumpkin” as they posed behind Tracy’s newly refurbished 1978 Gold Wing. Nice job on the bike, Tracy!**

# Ride to Stumpknocker's for Catfish!

Saturday, November 12, was a great day for a ride! 8 bikes and 11 riders enjoyed the crisp, clear weather. We met Charlie Nolan at the McDonald's on 54. Here we are at a popular pit stop at a huge Speedway gas station on Highway 50 on the way to Brooksville. It was so packed with biker groups that there was hardly room for any cars!

We saw a large group of Slingshots on Keystone Road on the way up and played tag with them all day. Then 48 of them pulled into this Gas Station so we HAD to see what was up with that!!!

## Ruth Hicks Recognized for Outstanding Service!

Submitted by Kim Palmore

**At the November 3 Village Inn Kick Tire Ruth Hicks was awarded a Certificate of Appreciation and 100 Chapter Dollars for her outstanding service for Clothes to Kids. Clothes to Kids is one of three charities that Chapter FL1-M supports annually, the other two being Toys for Pinellas and the Turkey Lady. The mission of the Clothes to Kids organization is “to provide free new, and quality used, clothing to low-income or in-crisis school aged children in Pinellas County”. Thank you, Ruth, for all that you do!**

## November General Gathering Highlights

Tracy Dunn and Ron Jackson Rider Educator and Assistant Rider Educator, respectively, were recognized at November's General Gathering. Chapter Director, Curtis Palmore, presented each of them a Certificate of Appreciation and 100 Chapter Dollars for conducting a CPR/First Aid class on November 13. Tracy and Ron, as well as Steven Burson and Bill Miller, are certified GWRRA CPR/First Aid instructors. Chapter M is very fortunate to have our own trainers in the Chapter. Free CPR classes are another example of the outstanding educational benefit that GWRRA offers Florida's members resulting from the sale of Gold Wing raffle tickets. Thanks guys for your dedication!

Congratulations to Maryann Todd on winning 'the Motor Maids' trophy for traveling the most miles by someone from Florida in one year, logging 23,112 miles in 18 states!

## **GOLDWING TICKETS**

The Chapter now has 4000 Goldwing tickets to sell. Please contact Tracy and Sharon Dunn for tickets. We will have them at the kick tires and General Gathering.

The Chapter needs your help to sell them and the new incentives (in addition to the free book for selling 10 books) are listed below.....

If our northern members would like tickets mailed to them....please send us a email with correct mailing address and number of tickets requested.

Remember that these ticket sales pays for all of your Rider Education (CPR/First Aid, ERC, TRC etc.) in the state of Florida.

If you will notice on the ticket stub, (the short stub you keep and put in the barrel), you will find a line marked "*SOLD BY*". When each ticket is sold the person selling it needs to put their name on that ticket. When the prize winning tickets are pulled at the rally, the person that sold the winning bike ticket will receive a cash prize of no less than \$200.00. (Depending on the amount of tickets sold it may even be more.) The \$1000 winning ticket and the \$500 winning ticket sales person/s will also receive a cash prize, (to be determined).

Any and all chapters selling 1500 or more tickets will have their annual charter fees paid for by the district which is \$100

### **EVERYONE IN CHAPTER FL1-M IS ELIGIBLE TO WIN!!!**

The fine print: Genuine Chapter FL1-M Dollars will be awarded in February 2017 following completion of GWR-RA raffle ticket sales for the Florida District Rally as an incentive to sell tickets for all current participants of Chapter FL1-M only. Note that this offer expires immediately in the event of flood, fire, famine, locusts, plague, earthquakes, hurricanes or other natural or manmade disaster (such as our printer failing to work or our computer crashing), which may impede the printing of required Chapter Dollars. Proceeds of this Award are to be spent solely at Chapter FL1-M's Annual Auction in February 2017 to purchase things you don't need but just can't live without. Nothing in this incentive notice may be construed to constitute winning real money!
